Furniture Touch Up Business Course Program

Work, Money & Place | Local review edition v2 | November 20, 2026

A bounded service, evidence and a complete owner cycle.

Small cosmetic pencil touch ups

Minwax Blend-Fil Pencil #3 only: shallow cosmetic marks on eligible finished wood. No structural repair or restoration.

Begin with permitted practice using suitable compatible borrowed supplies or a minimum sample kit before commercial equipment purchases.

Begin learning with L01. Check conditions and demand in L02 before buying or accepting paid work.

Five steps to a readiness decision

1. Narrow the cosmetic service — L01 / F01. One eligible surface, selected task and explicit boundaries.

2. Check operating conditions and demand — L02, L03 / F02, F03. Unsent demand experiment and dated local operating checks.

3. Complete permitted rehearsal — L04, L05, L06, L07 / F04, F05, F06, F07. Documented eligible sample and real selected-method observations.

4. Build an independent estimate and precise approval — L08, L09, L10 / F08, F09, F10. Full owner-cycle cost, conditional customer quote and separate trial/visible approvals.

5. Decide readiness and close the complete cycle — L11, L12, L13, L14 / F11, F12, F13, F14. Observed limited result, handoff, cash/stock reconciliation and evidence-based next decision.

Stop at missing conditions or evidence. The route is a study order, not permission to sell or perform unverified work.

A selected pencil-only cosmetic improvement to one or two shallow scratches on the low-contact vertical face of sound modern movable interior solid-wood furniture with documented stain and cured clear finish. Selected teaching system: Minwax Blend-Fil Pencil #3; no new coating, sanding, heat or solvent.

A prospective owner-operator without assumed trade expertise who will complete permitted practice and resolve operating conditions before customer work.

515 minutes (8 hours 35 minutes) of lesson study and written exercises. Additional physical practice, competent instruction and local research depend on evidence; no fixed practice-hours claim is made.

Start here

Start with demand and a narrow service definition before buying a kit. The service-specific lessons connect a realistic customer need to source-limited physical work, full-cycle costs and honest acceptance.

This is a complete business and task-planning course, not a trade credential. Actual permitted practice and competent help where needed are prerequisites to paid work. Fictional cases and illustrations are not field validation.

Use the neutral form labels and hints for your own business; the filled examples are separately labeled fictional. Keep all sample outreach unsent unless you later choose to use it within an authorized, ready operation.

First action: Read L01–L03 and complete F01–F03 with a narrow task, a demand experiment and actual operating unknowns before any stock purchase.

Course route

Choose and validate a bounded service

L01 Define a small cosmetic service you can actually demonstrate. Output: A narrow offer with explicit entry conditions and referrals Study and exercise allowance: 30 minutes.

L02 Check demand before buying a repair kit. Output: A two-week, unsent demand experiment and a stop-before-purchase decision Study and exercise allowance: 35 minutes.

L03 Verify the local operating conditions and customer authority. Output: A dated local permission and coverage checklist with unresolved items held Study and exercise allowance: 35 minutes.

Assess select and rehearse the supported task

L04 Screen photographs and map the actual defects. Output: An item-specific intake and defect map with go, hold or decline status Study and exercise allowance: 40 minutes.

L05 Read the selected product system without inventing a recipe. Output: A product and finish record that distinguishes sourced instructions from limits Study and exercise allowance: 40 minutes.

L06 Set up a protected, controlled household work area. Output: A checked site and kit plan with safe stop conditions Study and exercise allowance: 35 minutes.

L07 Rehearse the complete cosmetic task on a permitted sample. Output: A real practice record and a repeatability decision Study and exercise allowance: 45 minutes.

Estimate and obtain precise permission

L08 Build an independent full-cycle estimate. Output: A cost estimate before a customer price is chosen Study and exercise allowance: 40 minutes.

L09 Write an estimate the customer can actually approve. Output: A complete, conditional customer confirmation with separate trial permission Study and exercise allowance: 40 minutes.

L10 Perform the arrival assessment and authorized hidden trial. Output: An item-specific proceed or stop record before visible treatment Study and exercise allowance: 35 minutes.

Deliver inspect and close the whole business cycle

L11 Carry out the two approved pencil touch-ups with control. Output: A bounded application record with the surrounding finish preserved Study and exercise allowance: 40 minutes.

L12 Inspect, hand back and follow up without a false cure promise. Output: A customer-observed acceptance and product-specific use handoff Study and exercise allowance: 35 minutes.

L13 Reconcile stock, cash, owner value and an adverse outcome. Output: A checked job closeout and unchanged dated baseline Study and exercise allowance: 35 minutes.

L14 Make a readiness decision and manage the first limited bookings. Output: A documented launch, practice or stop decision with a controlled next action Study and exercise allowance: 30 minutes.

Starter boundaries

- Structural/load-bearing repairs or safety certification; loose joints, splits, instability, rot, swelling or damaged supports.
- Antiques, valuable/historic/culturally significant items and uncertain/suspect hazardous coatings.
- Unknown or failing finishes, contamination/polish concerns, laminate, printed film and lifted/missing veneer.
- Built-ins, floors, doors, architectural trim, food-contact and outdoor surfaces; furniture moving or custody.
- Stripping, sanding, spray processes, heat/burn-in, liquid stain, clearcoat, broad refinishing, water-ring removal and universal cleaner recipes.
- An invisible, factory-new, waterproof, universal durability or manufacturer-approved-item claim.

Files and readiness

The package contains 14 lessons, 14 working forms with separate examples, a complete fictional case, original teaching visuals and a formula planner with an independent Estimate and task-specific working sheets. Counts follow the tasks.

- Own narrow eligible task, product identity and documented surface are written; unsupported items are held.
- Own real local registration, licensing/classification, zoning/storage, business waste and coverage decisions are resolved for actual activity.
- Own permitted physical samples demonstrate repeatable selected method and honest stop decisions; fictional examples do not count.
- Demand experiment shows qualified fit at an independently estimated price; likes and unrelated antique requests do not count.
- Whole-cycle estimate includes research, prep, both travel legs, reset/report and actual follow-up; unused buffer is separate.
- Customer has authority, receives complete conditional price/scope/terms and separately approves hidden trial and visible work.
- Normal and angled appearance checks, product-specific use gate and supported concern/correction route can be explained.
- Stock, cash, fee, owner value and allocations reconcile; baseline remains dated/static; no uncontrolled refund or misleading CAC.
